

INNOVATIONS FOR LIVING®

## We're Hosting A Community Information Session

Owens Corning is hosting a Community Information Session to provide a progress update on the ongoing environmental investigation of its former manufacturing facility located in Berlin, New Jersey. Owens Corning continues to work in accordance with the rules and regulations of the New Jersey Department of Environmental Protection to restore the property as a valuable asset to the neighborhood.

### Keeping You Informed

Owens Corning is committed to open communications with the community as we work through this process. The Community Information Session will have a topline summary of the well survey results to date, a status update on our work to define the extent of groundwater impacts, and planned next steps. We will have project plans, maps and additional information on display. Owens Corning representatives and our team of experts will be on-hand to address your questions.

### Please Join Us

We appreciate that groundwater is a community concern and those not directly impacted by the well survey process may also be interested and have questions.

*There will be no formal presentation.* Feel free to stop by anytime between the hours of 6 p.m. and 8 p.m.

**What:** Community Information Session

**When:** Thursday, July 26, 2012  
6 p.m. – 8 p.m.

**Where:** Atco (Waterford Township) Senior Center  
474 E. Atlantic Avenue, Atco
